## About This Game

**Hi!**

We are a dad and a mom making Auri's Tales under the name of Dad's Indie Studio.

Auri's Tales is a tiny game by @amadeumartinez and @naretaa made with love and very few resources.

We are making this game in our free time, just for the pleasure of do it. We are in love with the idea of leaving it behind as a gift to our daughter, and we like to imagine that she one day will play a little 3D adventure designed by her fathers and placed in a fantasy world that is based on our own life.

### About the game

Auri's Tales is a tiny 3D adventure game in which players will need to solve 12 quests to get access to the castle and complete the game. The whole game will be contained in one single level that works as a mini open world that players can freely explore and evokes to the classic 3D platformers.

Jim Henson's Labyrinth, Alice in Wonderland, The Little Prince, Zelda I, Mario 64, Conker Reloaded or Dark Souls are some of the influences that inspire this game in different ways.

[What to do with that info? You decide. Only really got enjoyment out of one of the games, but it's a cool concept!. It's only a dollar, but boy is it fun lol. After playing the first two parts, this game is a really nice way to end the trilogy.](#)

Oh El Matador, ya coulda been a contenda. "El Matador" is the story of DEA Agent Victor Corbett and his efforts to help overthrow a Colombian drug cartel. And you do this by killing wave after wave of armed peons with the occasional boss trooper thrown in there. El Matador has some good things going for it. The gunplay is nice, the levels are lively, varied and pretty well designed. The graphics are very functional and vibrant. The story is totally B-Movie but the voice acting is well done. So where does "El Matador" go wrong? Well, you know that whole "shooting everything you see?". Well that's literally ALL you do. You go from point A to point B while shooting every bad guy in sight and fight a bullet sponge of a boss at the end of the level. The second issue and by far the biggest issue is the difficulty. Even on easy you will die and die a lot. You can take a couple shots okay but there are so many enemies coming from so many places that you will get mowed down in no time and while there is health available, it is really not there often enough. While El Matador is a pretty one note game, it does not wear its welcome out over seven chapters which can be finished in about 4 hours (less if you don't die so much). Overall I really can't recommend El Matador. There are some very good things going for it but they're outweighed by the ridiculous difficulty. 5.5/10 from me.. Fun little mecha 2d shoot em up. Sequel to gigantic army. Very forgiving compared to gigantic army, and that is not a bad thing. Has even a save system. Mouse and keyboard feels best for this but 360 pad works fine too.. 1-Game forces us to install stupid Ubibost's Uplay stupid launcher

2-Uplay's stupid launcher says CD Key already in use

3-Stupid Uplay support form says: "There was an error processing your request. Please try again later.". Worth the \$3 or So I paid for it, saw this on the yogscast and thought it would be a good game to play, and it turns out it was! Consider this to purchase, Some of the levels caused rage but others were cool and fun definitely need some out of the game tools to play this but other than that I loved every minute of it including the rage because its so satisfying when you complete a difficult level!. A nice module but lacking content unless bought with the "Museum Relic" campaign, so buy in a sale.. good game value.i like the bowling best, all the games are simple to start and play.there is something for everyone,
