### **Background:**

A lethal virus decimated the world's population over 3 years ago. It's apparent that Monolith Corp was behind the spread of the disease, but because of the disorder left from the billions of lives lost, governments and law enforcement are focusing on keeping order and supporting infrastructure instead of tracking down those responsible.

The World Justice Organization has plans to use their limited resources to prove that Monolith was responsible and rally the international community to bring them down.

Monolith's motives are unclear, but the series of events behind their plan will slowly come together.

You are a PRO, a Primary Retrieval Operator, who will use your set of unique skills to infiltrate the areas of operation, locate the evidence and return it to be processed.

---

Standing between you and your objectives is the MSF, Monolith Security Forces, whose sole purpose is to protect the interests of Monolith.

It's time for the world to see what they did and how they did it.

Libera iustitia. Gear up, PRO, and move out.

I got this for free. I played Orion: Prelude so thats prob the reason. I dont recommend buying this "special" edition. Just buy the game for 1\$ instead. Its not worth it.

5V100. its 99% fun to play. but the last boss is a horribly piece of s\*\*\*. even Cupsouls makes more fun to die. than grinding dozens of ups just to luckily random hit that boss. that boss could have been done better.. A 3 hour storyline at most , but a decent one. It's not easy to make 2Ds that are interesting, but this title offers some hours of action and mystery, which I found quite enjoyable.. Nope nope nope :c. The art is great, I can tell they've put a lot of effort into it.

This game has been making regular progress with updates, so I'm confident it will reach final release.. I am simply entranced... thank you, Mr. Lobser.

While better than first season pass, 5 of those 6 characters should be in the base game in the first place.. Love at first sight. I saw one of these beauties at the IRM (Illinois Railway Museum, Union, IL) sitting there. Sadly people added graffiti by using their hands on the dust. It was sad to see the messages on it. xD. Sure, I wish that the players moved, but overall the physics in this game are really good and I love trying to beat my high score.. This screenshot says everything:

Don't buy it.

The achievement for bad ending is just "Press 0 and click on any action non stop".

The good ending is a torture. (with bad musics)

The game is so bad, it closes itself at the end.

Total time: 12 minutes.

Edit: I have more than 2 hours because now we get cards after 2 hours of game time.

It's like this since Valve added the possibility to have a refund.. wtf ?! i bought this yesterday 29. june 2011 and you ALREADY give 33% .. THIS SUCKS!

other than that..

fun game :). been fideeling with it for too long. this feels way to hacked together in its current state. compared to other locomotion types like Freedom Locomotion this is hot garbage.

I appriciate the word done to get this working withother games but its a headache.. I'm constantly bouncing left and right while running forwards and its making me sick, the waving is not mapped ot anything other than wiimote style running. pretty lackluster, even sprint vector had better handwaving controls when at a standstill... well what can you do when youre emulating a trackpad.. not for me unfortunately.. This is destined to be a classic. The lone developer is active, and this game has so much more content to be developed. Even still, I enjoyed playing it through. The art is beautiful, the music suggests both awe and desperation, and you will come to love your little ship.. Correct me if I'm wrong, but I'm pretty sure that cowboys in the old west didn't need to pull the hammer back EVERY SINGLE TIME THEY SHOOT!

I'm also pretty sure they had more than 2 GUNS back then.

Edit: Ok, I stand corrected they did need to pull the hammer back, forgive me if I didn't see that in all those western movies and games. You know, the ones that take creative liberties to make them entertaining.
